A note from Dr. Sam

This sharefolder contains handouts and Power Points from the 4 conferences where I will be presenting during January through March 2024. It contains lots of information on the various viewpoints around the issue of how to teach reading. It is part of my quest to find common ground using common sense. The folder will be updated weekly with the newest information available. The sharefolder will remain active until the end of April 2024.
