Gravity Goldberg is the author of several books including *Teach Like Yourself*, *Mindsets and Moves*, *What Do I Teach Readers Tomorrow*, and *Conferring with Readers*. She spends most of her days leading workshops, coaching teachers, and admiring the learners all around her. Gravity leads a consulting group in the NY/NJ area and supports districts and schools in taking on a balanced approach to literacy learning.

Presentation:

Having a time in your day for independent reading is just the start. If we want students to become truly independent readers we can help them develop ownership, agency, and the mindset of engagement.

In this workshop, Gravity will share her 4 M's teacher framework- being a Miner, Mirror, Model, and Mentor. Through stories, research, teaching videos, and student work samples you will learn what might be getting in the way of your students' becoming lifelong, independent readers and what you can shift to make the biggest impact. You will leave with concrete teacher moves, language, and confidence to help every student identify as a reader.

REGISTRATION FEES:

\$150 WSRA member

\$250 Nonmember

\$35 Full-time Undergraduate Student member of WSRA
